Automated analysis cannot detect every possible bug, vulnerability or memory leak.

CODE VALIDATION AGENT

FAILED

Analysis report

proj-6695b93a7de647e59c9f40cb1fb09bc4

01 · EXECUTIVE SUMMARY

At a glance

Actual results returned by this analysis run

Project name **python**	Project ID **proj-6695b93a7de647e59c9f40cb1fb09bc4**
Analysis run ID **run-f3721f99c58543bf99d6e79d18537fdb**	Date and time **31/10/2026, 12:20:57** Recorded when this browser received the completed run.
Validation status **FAILED**	Quality score **61**
Files submitted **1**	Files analyzed **1**
Current findings **6**	Repair attempts **2**
Repair status **Needs review**	

Critical **0**	High **3**
Medium **3**	Low **0**

02 · VALIDATION RESULT

Why did validation fail?

Repair candidate requires review because analyzer verification was incomplete: File "[PATH REDACTED] line 1 import os # Intentionally unused: should trigger an F401 finding. ^ SyntaxError: invalid non-printable character U+00A0

Critical/high-risk findings: 3 remaining

Cause reported by workflow: The repair candidate was rejected during final verification: File "[PATH REDACTED] line 1 import os # Intentionally unused: should trigger an F401 finding. ^ SyntaxError: invalid non-printable character U+00A0

Next step: Resolve the reported workflow or validation issue, then run validation again.

Review findings

03 · CODE HEALTH

Severity and quality

Errors reported by quality analyzer	Warnings reported by quality analyzer
2	3
Complex functions	**Quality gate**
0	FAIL

Quality gate reason: errors: 2 against maximum 0; quality score: 61 against minimum 75; mypy partial

04 · WORKFLOW

Validation pipeline

Stages without a backend status are marked Not reported.

01	Understand	Completed
02	Analyze	Partial
03	Aggregate	Completed
04	Prioritize	Completed
05	AI report & recommendations	Completed
06	Repair	Needs review
07	Re-analyze	Partial

Validation status
FAILED

Severity: All severities | Category: All categories | Repair status: All repair statuses

P1 High Syntax

RADON_SYNTAX_ERROR

`small_segment.py · Line 1`

Unresolved · Revalidation required

Could not parse file for complexity analysis: invalid non-printable character U+00A0 (<unknown>, line 1)

Suggested fix

Review and address the reported issue.

▸ Evidence and workflow details

P1 High Syntax

MYPY_SYNTAX

`small_sample.py · Line 1`

Unresolved · Revalidation required

invalid non-printable character U+00A0

Suggested fix

Review and address the reported issue.

▸ Evidence and workflow details

P1 High Syntax

BUG000

`small_sample.py · Line 1`

Unresolved · Revalidation required

Python syntax errors prevented AST-based bug and resource checks from inspecting this file.

Suggested fix

Fix the syntax error and rerun analysis.

▸ Evidence and workflow details

P2 Medium Syntax

unknown_issue

small_sample.py · Line 1

Unresolved · Revalidation required

SyntaxError: Got unexpected token

Suggested fix

Review and address the reported issue.

▸ Evidence and workflow details

P2 Medium Syntax

unknown_issue

small_sample.py · Line 8

Unresolved · Revalidation required

SyntaxError: Got unexpected token

Suggested fix

Review and address the reported issue.

▸ Evidence and workflow details

P2 Medium Code Quality

E0001

small_sample.py · Line 1

Unresolved · Revalidation required

Parsing failed: 'invalid non-printable character U+00A0 (small_sample, line 1)'

Suggested fix

Review and address the reported issue.

▸ Evidence and workflow details

08 · SECURITY

Security analysis

Not reported: Security execution status was not reported. An empty findings list is not evidence of a completed clean scan.

10 · REPAIR HISTORY

Repair attempts

1. **Attempt 1** failed

Mode **targeted**	Candidate **rejected**
Files changed **0**	Findings detected **Not available**
Findings before **Not available**	Findings after **Not available**
Validation **Not available**	

Repair rejected: small_sample.py: Repair introduced Ruff findings: F401 at line 1, column 8

Candidate rejected: File "[PATH REDACTED] line 1 import os # Intentionally unused: should trigger an F401 finding.
^ SyntaxError: invalid non-printable character U+00A0

- **small_sample.py**Unchanged · Repair rejected: small_sample.py: Repair introduced Ruff findings: F401 at line 1, column 8

2. **Attempt 2** failed

Mode **targeted**	Candidate **rejected**
Files changed **0**	Findings detected **Not available**
Findings before **6**	Findings after **Not available**
Validation **Not available**	

Repair rejected: small_sample.py: Repair introduced Ruff findings: F401 at line 1, column 8

Candidate rejected: File "[PATH REDACTED] line 1 import os # Intentionally unused: should trigger an F401 finding.
^ SyntaxError: invalid non-printable character U+00A0

- **small_sample.py**Unchanged · Repair rejected: small_sample.py: Repair introduced Ruff findings: F401 at line 1, column 8

11 · BEFORE / AFTER

Re-analysis comparison

Comparison is partial because one or more re-analysis agents did not complete. Findings could not be confirmed: 5.

Original and repaired code

Compare your submitted source with the repair candidate. Changed lines are highlighted; if no repair was produced, the reason is shown here.

Repair failed: Repair rejected: small_sample.py: Repair introduced Ruff findings: F401 at line 1, column 8

AI REVIEW

Report and recommendations

COMPLETED · OLLAMA

Independent Ollama review of 1 submitted files. Suggested changes are review-only and have not been applied.

Additional issues

1. **Unused Import** · small_sample.py:1

   The import statement 'os' is not used anywhere in the file.

Proposed fixes

No code fixes were returned.

Project suggestions

- **Code Quality:** Remove the unused import statement.

  Improves code readability and reduces potential errors.

12 · NEXT STEPS

Final recommendation

REVIEW REQUIRED

Resolve the reported workflow or validation issue, then run validation again.

Analyzer recommendations

1. Review and address the reported issue.
2. Fix the syntax error and rerun analysis.

The report displays only data returned by the connected analysis services. Unavailable measurements are not estimated.

Program execution · exit code 1

The program produced no standard output.

Errors and diagnostics

```
  File "/sandbox/ca973f2a-a894-4978-9ebe-65e1ca6cd33d/small_sample.py", line 1
    import os  # Intentionally unused: should trigger an F401 finding.
             ^
SyntaxError: invalid non-printable character U+00A0
```
